Subject: Clarification regarding conduct of On-line exam in AITT under CTS for the trainees admitted in NSTI and Govt/ Pvt. ITIs in Session Aug 2018 – reg.

Sir

As you are aware, DGT is going to conduct On-line exam during the month of June 2019 in AITT under CTS (Annual examination system) for the trainees admitted in NSTI and Govt/ Pvt. ITIs in admission Session Aug 2018. The online exam will be conducted for Theoretical subjects i.e. Trade theory, Workshop Cal & Sc. and Employability Skill only. The Engg drawing exam will be conducted on drawing sheet as per prevailing practice.

There is a misconception among all the concerned that online examination will require dedicated internet connection.

In this regard, it is to inform that, such online examination will be conducted by the service provider/agency engaged by the DGT through Local Area Network (LAN) setup at the venue/exam centre of the online exam. The exam centres will be decided by concerned agency. The Multiple Choice Question (MCQ) will be administered to various computer nodes of trainee at exam centre through the local server of agency installed in concerned exam centre itself. Therefore the process of online exam does not require any dedicated internet connection.

The mock test facility/link will also be provided through portal of the agency / DGT for practice by the trainees before going to appear in AITT. The trainees can use this facility in IT lab of the ITI or any other place with internet connection.

Yours faithfully

(S.D. Lahiri)
Deputy Director General (T&E)
